

I'll Never Let It Go – Claire Ingleheart/Lande Hekt

**In the darkness, while we wait
For someone else, to decide our fate
Is there something, we can do?
Is there another path to choose?**

Chorus

For I am more powerful
Than you'll ever know
And I have democracy
And I'll never let it go
No I'll never let it go.

**Restless thinking about the state
Of widespread poverty served on a plate
We could do better, we could do more
More women must stand to change the law**

Chorus

For I am more powerful
Than you'll ever know
And I have democracy
And I'll never let it go
No I'll never let it go.

For we are so powerful
And soon they will know
And we have democracy
And we'll never let it go
No we'll never let it go.
